- **Vault has formed the solid base of a globally scalable SaaS business**

Environmental health and safety (EHS) software provider Vault Intelligence Limited (ASX: VLT, “the Company”, previously Credo Resources Limited) is pleased to present its June 2016 quarterly report on business progress.

Corporate

During the quarter, the Company successfully raised \$4.3 million (before costs) in a significantly oversubscribed capital raising associated with its acquisition of NGB Industries Limited, the company that operates the Vault EHS business.

The capital raising has provided the funding for Vault to scale up its business in Australia and elsewhere. The Company’s Appendix 4C report covers the period from 1 April to 30 June 2016 and as such includes the period during which the Company acquired NGB Industries Limited.

The cash balance of the Company on 30 June 2016 was \$3.884 million after the June 2016 quarter net operational cash burn of \$122,000.

The Company and its directors appreciate the support new and existing shareholders have shown through the capital raising process.

Operations

Vault progressed several valuable business development opportunities during the three months ending 30 June 2016 as it expanded its reach into new and existing markets in line with the strategic plan outlined in the Company’s prospectus dated 10 May 2016.

During the quarter, the Vault business enjoyed cash receipts from customers of \$650,000. The Company has maintained sales momentum and continued to expand its customer base across multiple sectors during the period. With its new suite of standalone mobile EHS products now the subject of a sales ramp up to the broader market, Vault has formed the solid base of a globally scalable SaaS business.

The Company remains excited about its prospects for winning new business and continues to pursue a comprehensive pipeline of client leads.

In the near term, Vault expects to reap genuine benefits of having invested in bolstering its Australian presence through its new Melbourne headquarters.
