## **Vault hits recurring revenue milestone as growth accelerates**

### **Highlights**

- **Vault enjoys very positive start to the second quarter, signing six new Enterprise customers in October**
- **Reseller and Partnership Program launch to accelerate conversion into recurring revenue of a sales pipeline which has grown 300% in six weeks**
- **International mobile-led sales growth continues to escalate**
- **Achievement of key recurring revenue performance milestone triggers conversion of 75,000,000 Contingent Share Rights into fully paid ordinary shares in Vault Intelligence**

Risk, compliance and safety software provider Vault Intelligence Limited (ASX: VLT), “the Company”) is pleased to present an update on business progress.

### **Enterprise growth continues with healthy channel partnership pipeline**

Vault has enjoyed a very positive start to the second quarter, having signed up six new customers in October to use the Company’s Enterprise risk and safety management systems. Two of these customers are established helicopter businesses, representing continued success for Vault in this industry sector.

The Company is well advanced in the development of large major channel partners and is advancing sales with large enterprise customers.

The Company is gaining positive traction internationally, having implemented its enterprise and mobile solution with its first customer in the Asian region, Royal Phuket Marina.

This month, Vault will launch its Reseller and Partnership Program to individuals, partnerships and companies directly involved in the risk and environmental health and safety (EHS) sector. The Company expects this initiative to accelerate the conversion of its increasingly healthy new business pipeline into recurring revenue.

### **Mobile growth accelerates**

Sales of the Company’s new mobile solution apps are continuing to escalate, with continued strong cross-selling to the existing customer base. The Vault Apps suite is also proving attractive to new customers, with the system having been deployed in October by a major telecommunications infrastructure group to cover 160 in-field project managers.

Vault Intelligence Founder and Managing Director, David Moylan, said:

“Sales are flowing nicely and growth of the sales pipeline continues to expand on a weekly basis with the recently built Australian sales team performing better than expected. The sales pipeline has grown by 300% in six weeks.

“Outside of our efforts in the larger enterprise sales space, we are working hard on several major channel partner fronts which will be significant to the Company when concluded. The launch of the Reseller and Partnership Program will enhance and grow the Company’s existing sales channels through parties actively involved in the risk and safety sector.”

### **Achievement of key recurring revenue milestone**

Following audit of the Vault Intelligence financial accounts for the year ending 30 June 2016, the Company advises that it has achieved audited recurring revenue for the period 1 July 2015 to 30 June 2016 greater than \$1,400,000 (excluding GST).

This represents achievement of the Performance Milestone relating to the issue of 75,000,000 Contingent Share Rights, with terms described in the Company’s recent prospectus.

As the hurdle has been met, the Contingent Share Rights currently on issue will convert to one fully paid ordinary share each.

Existing escrow restrictions imposed on holders of the Contingent Share Rights will remain in place.

An Appendix 3B is attached.
